WORK EXPERIENCE

Sr Software Engineer - Allbirds - 1/20 - 10/2022

Founding member of Allbirds' iOS eCommerce team. Owned the in-app, AR try on experience for shoes resulting in a significant increase in year-over-year conversions. Championed ADA compliance using Voiceover. Owned Apple Pay integration. Contributed to Contentful's iOS SDK to unblock Allbirds team.

Angular Developer - West Harbor Technologies - 12/18 - 12/19

Founding member of a team building a ground-up rewrite of a billion dollar, customer-facing e-commerce platform for Royal Caribbean brands. Owned the custom Calendar app UI for scheduling cruise events. Owned ADA compliance.

C# / Angular Developer - Future Engineers - 11/17 - 12/18

Built or upgraded all front end, responsive content, pixel perfect for public site and custom CMS using C# ASP.NET MVC5, Razor, Angular, jQuery, Bootstrap and Sass.

Drupal Developer - Advanstar/UBM Americas - 9/13 – 11/17

Recreated Java marketing app in Drupal, without access to source code, saving the company millions of dollars and unblocking the marketing department. Used iBeacon and Twilio to provide real-time interactions at trade shows.

Freelance Web Developer - 8/09 – 9/13

Contract services provided for a wide range of companies including Dos Equis, Sony, Take Two and Universal Pictures. App development and web development using Objective-C, Full stack .NET MVC3, Java and PHP development. SQL variants included T-Sql, PL/SQL and MySQL.

Account and Project Manager - Crownpeak Technology, Inc. - 11/08 – 8/09

Managed relationships and communication with clients. Led the build and support for product integration. Trained new staff and developed training documentation.

Full Stack C# Developer - Infotrieve - 1/05 – 1/07

Built and consumed SOAP and REST web services to share access to scientific and technical documents between our library and similar libraries around the world. Maintained shopping cart. Reviewed, debugged and integrated code written by contractors and other 3rd parties.
